

Community Canine (CGCA) Test Items

- 1. Dog stands, sits or lies down and waits under control while the owner:**
 - sits at the registration table and fills out paperwork, or,
 - if the test is done in the community, dog waits while the owner sits and has a snack or visits with another person (e.g., at a park)
- 2. Walks on a loose leash in a natural situation (not in a ring) – does not pull.**
 - left turn, right turn, stop, fast and slow pace
- 3. Walks on loose leash through a crowd:**
 - at a show or in class, this item is tested in a real crowd, not in a ring
 - in the community, dog walks on sidewalk, through a crowd at a community fair, park, on a trail, through a busy hallway, etc.
- 4. Dog walks past distraction dogs present; does not pull.**

This item may be tested along with #3 if there are dogs in the crowd, etc.

 - at a show or class, dog walks by dogs waiting in the crowd—dogs 2 ft. apart
 - in the community, dog walks by other dogs on a trail, sidewalk, in a hallway, etc.
- 5. Sit-stay in small group** (2 other people with dogs, total of 3 people, 3 dogs).
- 6. Dog allows person who is carrying something (backpack, computer bag, etc.) to approach and pet it.**

“May I pet your dog?” (Item is placed on ground before the person pets the dog)
- 7. “Leave it.”** Dog walks by food and follows owner instructions, “Leave it.”

This can be food placed by the evaluator on the floor or ground in a food dish.
- 8. Down or sit stay – distance (owner’s choice).**

Dog is on 20-ft line, owner walks away with back to dog, picks up an item (e.g., backpack, training bag, clipboard, folder etc.) placed on the floor/chair/ground by the evaluator and returns to the dog.
- 9. Recall with distractions present (coming when called). Handler goes out 20-ft. *(off center) and calls dog.**

Dog is on the 20-ft. line from #8 above.
- 10. Dog will sit or stand stay (owner’s choice) while owner enters/exits a doorway or narrow passageway. Owner calls dog through door when ready.**

Owner may also choose to:

 - send the dog through first and have the dog wait for the owner, or
 - the owner may choose to have go through the doorway with the dog at their side.

Whichever method is used, the dog must not pull the owner and must be under good control. Think of the handler having the leash in one hand and a cup of coffee in the other. Doorway or gate can be real or simulated with ring gates, two chairs, or a natural passageway (e.g., entrance to trail) in the community.
